ELKHORN AND STAGHORN CORALS

Facts:
• Fast-growing, branching coral
• Hosts MACROALGAE

ELKHORN AND STAGHORN CORALS

Facts:
• Fast-growing, branching coral
• Hosts MACROALGAE
FINGER CORALS

Facts:
- Faster-growing corals
- Hosts MACROALGAE
**Facts:**
- Slow-growing coral that forms the structure of a coral reef
- Hosts MACROALGAE
SEA TURTLE

Facts:
• Eats SEA GRASS

SEA TURTLE

Facts:
• Eats SEA GRASS
SURGEONFISH

Facts:
• Eats macroalgae on CORALS
• Feeds NURSE SHARKS
SPINY LOBSTER

Facts:
- Eats SHRIMP
- Feeds NURSE SHARK
PINK SHRIMP

Facts:
• Feeds LOBSTER

PINK SHRIMP

Facts:
• Feeds LOBSTER
NURSE SHARK

Facts:
• Eats QUEEN CONCH and LOBSTER and SURGEONFISH

Facts:
• Eats QUEEN CONCH and LOBSTER and SURGEONFISH
SEA SPONGES

Facts:
• Eats MACROALGAE from the water
**QUEEN CONCH**

**Facts:**
- Eats MACROALGAE from the water
- Feeds NURSE SHARK

**QUEEN CONCH**

**Facts:**
- Eats MACROALGAE from the water
- Feeds NURSE SHARK
SEAGRASS

Facts:
• Feeds SEA TURTLE
